

Self declaration form

Requirements in IOS-MAT-0066 and IOS-MAT-0054: for organic coatings and coverings intended for use in children's products.

Spec.no: IOS-MAT-0066
Version no: AA-163938-7
Spec.no: IOS-MAT-0054
Version no: AA-92520-7
Declaration form issue date: 2011-01-28

Surface coating declaration by surface coating supplier for coverings, organic coatings and thinners for children's products

About this form: This form shall be used, instead of self-declaration form Appendix C to IOS-MAT-0066 (AA-163938-7), for coverings, liquid and powder coatings, and fillers, as well as solvents for cleaning/degreasing and thinners, applied on IKEA products for children and on components of such children's products. This form includes the applicable parts of the additional chemical requirements on coverings and organic coatings for children's products in IOS-MAT-0054 (AA-92520-7). Definitions are as in IOS-MAT-0066 and IOS-MAT-0054.

Trade name and article no. of coating/covering product	Type of product ^A	Type of surface coating ^B or covering ^C	Type of coating binder ^D
AKRILIN	FILLER	WATERBORNE FILLER	ACRYLIC EMULSION

Note: For coverings (foils, surface laminates, and edge bands), declaration shall be made only for the final covering product as delivered to the IKEA supplier (or the equivalent producer applying the covering) – except for lead, see footnote 8.

- A) Type of product: e.g. filler, primer, base coat, top coat, foil, surface laminate, edge band.
- B) Specify type of surface coating: for example water-borne UV coating, 100% UV coating, water-borne coating, solvent-borne coating, 2-pack polyurethane coating, powder coating, printing ink, oil treatment, wax treatment, metal surface treatment (specify), other treatment (specify).
- C) Specify type of surface covering: ABS foil, PET foil, melamine paper, PE foil, PMMA foil, PP foil, PS foil, PU foil, styrene/acrylonitrile foil, UF-impregnated paper, paper foil, metal foil, melamine laminate, ABS edge band, melamine edge band, PE edge band, PP edge band, other (specify).
- D) Specify type of coating binder (including coating binders used in the manufacturing of surface coverings): acrylic, alkyd resin, epoxy/polyester mix, nitrocellulose, polyester, polyurethane, polyurethane/acrylic, other (specify).

Hereby we, the surface coating/covering supplier, certify that the above surface coating(s)/covering(s) fulfils the following specific requirements regarding the chemical content stated in IOS-MAT-0066 (AA-163938-7) and IOS-MAT-0054 (AA-92520-7):

Please complete the declaration below for each of the coating/covering systems components listed above. For each requirement check either "fulfils" or "not applicable". (Note that for some restricted substances the IKEA supplier must provide test reports as well as this SD, as specified in IOS-MAT-0066 and IOS-MAT-0054.
